

September 29, 2015

TO: Roundtable Representatives and Alternates

FROM: James A. Castañeda, AICP, Program Coordinator 

SUBJECT: Roundtable Strategic Plan 2015-2018 and Work Program for FY2015-2016

On September 28, 2015, the Work Program Subcommittee assembled to discuss the Roundtable’s three year Strategic Plan and the Work Program for FY 2015-2016. Every three years the Roundtable reviews and adopts a Strategic Plan that outlines the long-term goals and vision, and provides a framework for the yearly Work Plan - the means to accomplish those goals.

The following illustration summarizes the relationship between the Strategic Plan and the Work Plan:

The Work Program Subcommittee reviewed and discussed the two documents, and is recommending that the Roundtable approval the attached Strategic Plan for 2015-2018 and Work Plan for FY 2015-2016.

DRAFT
ROUNDTABLE STRATEGIC PLAN

November 1, 2015 – December 31, 2018

Presented to the Roundtable for consideration on October 7, 2015

ORGANIZATION OF THIS STRATEGIC PLAN

This Strategic Plan is organized as follows:

- Introduction
- Background/History
- Opportunistic Strategy
- Guiding Principles
- Mission Statement
- Goals, Action Items, Resources, and Desired Results
- Strategic Plan Amendment Process
- Appendices: Roundtable Bylaws and Memorandum of Understanding

INTRODUCTION

In 2010, the Roundtable adopted its first Strategic Plan to better serve its membership and provide long-term goals and vision. As a part of its ongoing mission to serve the residents living in the Roundtable communities (County of San Mateo and the City and County of San Francisco) affected by noise from aircraft operating to and from SFO, the Roundtable embarked on a strategic planning process in early 2010 with a goal of developing a Strategic Plan that would guide the Roundtable actions over the next three years. The Roundtable appointed a Strategic Planning Subcommittee to carry out the strategic planning process and to bring a recommended Strategic Plan back to the full Roundtable for its consideration and adoption.

This Strategic Plan represents the work product of the Subcommittee and is the Strategic Plan that was approved by the full Roundtable at its December 2, 2015 Regular Roundtable meeting; this strategic plan is in place today and serves as the basis for future Strategic Plan iterations. This Strategic Plan will guide the Roundtable's actions for the next three years.

Recognizing that the Roundtable needs to respond to changing conditions over time, there are provisions within the Strategic Plan that allow for its revision prior to 2018. In fact, the Strategic Plan update process will begin a year in advance of the expiration of the Plan or sooner if needed. Until that time, the Roundtable will rely on the guidance provided by the Strategic Plan to develop its annual Work Program, prioritize its activities, and guide its efforts to work with SFO, the Federal Aviation Administration, and the airlines to respond to community concerns and to minimize the impact of aircraft noise on Roundtable member communities.

BACKGROUND/HISTORY

The Airport/Community Roundtable was established in 1981 as a voluntary committee of elected officials to address community noise impacts from aircraft operations at SFO. The Roundtable monitors a performance-based noise mitigation program implemented by airport staff, interprets community concerns and attempts to achieve noise mitigation

through a cooperative sharing of authority among the aviation industry, the Federal Aviation Administration (FAA), SFO management and local government.

The authority to control aircraft in flight and on the ground is vested exclusively in the FAA. The FAA, however, cannot control the number of flights or the time of day aircraft operate. Federal law preempts any local government agency from implementing any action that is intended to control the routes of aircraft in flight. Neither the Roundtable, local elected officials nor airport management can control the routes of aircraft in flight or on the ground.

OPPORTUNISTIC STRATEGY

The Roundtable has adopted a three-year strategic plan that incorporates an “Opportunistic Strategy”. This strategy operates on the principle that the Roundtable will use positive, constructive methods to advance its goals and mission.

Under this strategy, the Roundtable will continue to receive reports on its various programs such as the Fly Quiet Program; receive updates on regional aviation planning activities; and determine and present the annual Fly Quiet Program Awards.

The Roundtable will also take advantage of opportunities to respond to proposed federal or state legislative actions related to aircraft noise or land use compatibility. This level of activity may include actively tracking and responding to proposed aircraft noise legislation by writing letters in support of or against proposed legislation. This strategy will also include the active promotion of aircraft noise reduction technologies or compatible land use planning initiatives by participating in research vehicles such as the Airport Cooperative Research Program (ACRP) or providing written support of technology programs designed to reduce aircraft noise. Under this approach, the Roundtable may prepare and submit project statements and/or participate in a relevant ACRP project panel.¹

This strategy allows the Roundtable to continue with its historical monitoring of SFO’s noise abatement programs, while responding to aircraft noise and land use compatibility legislation on an ad hoc basis, which gives the Roundtable a greater voice in these matters. In addition, actively supporting technology programs designed to reduce aircraft noise and ACRP’s research efforts will benefit future generations living in Roundtable communities.

GUIDING PRINCIPLES

The following guiding principles define the manner in which the Roundtable will conduct business over the next three-year period:

¹ ACRP Panel members provide technical guidance, review workproduct, and approve guidance documents for release to the public.

1. The Roundtable is the preeminent forum for addressing and resolving community concerns related to noise from aircraft operating to and from San Francisco International Airport.
2. The Roundtable fosters and enhances cooperation between the San Francisco International Airport, noise-impacted communities, the federal government, and the airlines with the purpose of developing, evaluating, and implementing reasonable and feasible policies, procedures, and mitigation actions that will further reduce aircraft noise exposure in neighborhoods and communities in San Francisco and San Mateo Counties.
3. The Roundtable members, as a group, when considering and taking actions to mitigate noise, will not knowingly or deliberately support, encourage, or adopt actions, rules, regulations or policies, that result in the “shifting” of aircraft noise from one community to another, when related to aircraft operations at San Francisco International Airport.

MISSION STATEMENT

The Roundtable’s mission is to continue to address and resolve community concerns related to SFO aircraft noise, to monitor aircraft operations and conduct airline outreach, to monitor SFO’s aircraft noise abatement programs, to respond to and support aircraft noise related legislation and programs, and to support research that reduces aircraft noise exposure and promotes compatible land use planning for those communities within the members’ jurisdictions.

GOALS, ACTION ITEMS, RESOURCES, AND DESIRED RESULTS

The following goals are listed in priority order, but may be adjusted as needed over time to reflect the community’s needs:

Goal No. 1 – Aircraft Procedures: The Roundtable will focus on aircraft arrival and departure procedures. The focus includes multiple facets: monitor adherence to existing procedures (standard and noise abatement); work with SFO Airport Noise Abatement Office (SFO ANAO) to monitor and develop noise abatement procedures; and work with FAA and airlines to advance the goal of noise reduction.

Action item: The Roundtable will monitor aircraft adherence to procedures and provide support to the SFO ANAO for outreach to airlines and FAA.

Resources: No additional resources beyond Roundtable Staff time required.

Desired results: The ongoing utilization of noise abatement procedures and when able, development of noise abatement procedures.

Goal No. 2 – Airline Outreach: The Roundtable will conduct airline outreach and education regarding SFO's aircraft noise abatement program through the Fly Quiet Program and other avenues as needed.

Action item: The Roundtable will continue to communicate positively with the airlines regarding the noise sensitive issues in and around the community.

Resources: No additional resources beyond Roundtable Staff time required.

Desired results: Improved airline awareness to aircraft noise issues in the Roundtable communities.

Goal No. 3 – Support Aircraft Noise Reduction Legislation and Research: The Roundtable will support appropriate aircraft noise reduction legislation and research.

Action item: The Roundtable will actively review, monitor, and support, when appropriate, research, legislation, and aircraft noise reduction programs.

Resources: No additional resources beyond Roundtable Staff time required.

Desired results: Continued reduction aircraft noise levels.

Goal No. 4 – Address Community Concerns: The Roundtable will remain the forum for addressing community concerns regarding noise from aircraft operating to and from SFO affecting its membership. The Roundtable will remain focused on its membership, including the cities within San Mateo County, San Mateo County, and the City and County of San Francisco. While the Roundtable operates to serve those within its membership, it continues to be sensitive and inclusive of noise concerns from operations at SFO beyond its members to the bay area region.

Action item: The Roundtable will continue to actively respond to community concerns regarding aircraft noise issues and provide education opportunities for the bay area and Roundtable membership to learn about airport operations, aircraft noise, and air traffic procedures.

Resources: No additional resources beyond Roundtable Staff time required and budget items for special reports, studies, or professional services.

Desired results: An informed regional community and Roundtable membership regarding aircraft noise issues at SFO.

STRATEGIC PLAN AMENDMENT PROCESS

This Strategic Plan is a long-term plan that is intended to guide the Roundtable over a three-year period. Among other things, the Strategic Plan shall be used to guide the development of the Roundtable's annual Work Program. The Work Program can be tailored to respond to short-term needs, while remaining responsive the Roundtable's long-term goals.

There may be circumstances, however, during which conditions change to a point that require an update of the Strategic Plan. In those instances, the Strategic Planning Subcommittee shall be convened to discuss the required changes to Strategic Plan and, when appropriate, shall make recommendations to the full Roundtable regarding the required updates to the Strategic Plan. If the full Roundtable adopts the Subcommittee's recommendations, the Strategic Plan will be amended to reflect those recommendations.

The foregoing notwithstanding, the Strategic Plan shall be updated no less than every three years. The strategic planning process shall commence no less than one year prior to the expiration plan. The Strategic Planning Subcommittee shall be convened to conduct the strategic planning process and present a recommended Strategic Plan to the full Roundtable for consideration and adoption.

DRAFT

DRAFT

**ROUNDTABLE ANNUAL
WORK PLAN**

July 1, 2015 through June 30, 2016

Presented to the Roundtable for consideration on October 7, 2015

Organization of the Work Program

The Work Program is organized as follows. Each of the items includes: item description, background, present to Roundtable, staff assigned, Strategic Plan goal and budget allocated.

- Administrative Items
- Legislative Items
- Research Items
- Aircraft Operations/ Airspace

Introduction

The Work Program is part of the Roundtable's overall approach to planning efforts; it is guided by the Roundtable's Strategic Plan. The Strategic Plan has a three-year planning horizon and the Work Program has a one-year planning horizon. The Work Program items are distilled from the overall Strategic Plan goals; each of the Work Program items are associated with a Strategic Plan goal.

While the Work Program is a one-year document, many items will be rolled over through multiple planning cycles. This is due to the longer-term nature of some items, including standing updates and future technologies. These longer-term items remain on the Work Program in order for the Roundtable to maintain their understanding of the issue. The Roundtable appointed a Work Program Subcommittee to carry out the work program planning process and to bring a recommended Work Program back to the full Roundtable for its consideration and adoption.

Work Program – Administrative Items

AI1. Roundtable Website Maintenance

Item Description:

Maintain the Roundtable website www.sforoundtable.org and update with new information as required for the public.

- Maintain existing website.
- Include historical information as required.
- Upload agendas, agenda packets, and subcommittee meeting information.
- Maintain and continue to populate informational section containing Noise 101 presentations and noise metric videos.

Background:

The Roundtable updated its website as a Work Program item in 2013 – 2014 and was presented to the Roundtable at its September 2013 meeting.

This is a maintenance item. Roundtable staff and consultant staff will update the website on per-meeting with the agenda and agenda packet, upload subcommittee agendas, and update the website with appropriate documents, links, and tweets.

Present to Roundtable: As new information is uploaded.

Staff Assigned: Roundtable staff

Strategic Goal: 4

Budget Allocated: No extra budget effort for RT staff is anticipated; updates will utilize existing staff resources where possible.

AI2. Fly Quiet Update

Item Description:

Continue receiving updates to the airport's Fly Quiet Program

Background:

The Roundtable and SFO launched the Fly Quiet Program in 2001. The Fly Quiet Program is a quarterly report of airline performance in specific categories. The Roundtable holds the Fly Quiet awards at the February meeting each year, inviting the overall winner and category winners to the Roundtable meeting for an official presentation of the awards. The awards presented are: Chairman's Award, Fly Quiet Award, and Most Improved. It is recommended the February meeting be held at the SFO airport museum to present the awards to airlines receiving them to celebrate their accomplishments.

Present to Roundtable: This item is anticipated to be presented to the Roundtable at meetings immediately following the closing of each reporting quarter, including information on fleet mix trends at SFO.

Staff Assigned: Airport staff

Strategic Goal: 2

Budget Allocated: Budget expenditure to include refreshments and the existing budget for awards.

AI3. Airport Updates

Item Description:

Continue receiving updates from the airport Director or other staff on significant airport happenings, traffic levels, operations, and other data from the preceding months

Background:

The airport provides information germane to the RT and noise issues at each meeting. The briefing is typically provided by the airport Director.

Present to Roundtable: This item is anticipated to be presented to the Roundtable at each meeting.

Staff Assigned: Airport staff

Strategic Goal: 4

Budget Allocated: No extra budget effort anticipated.

AI4. Outreach to OAK Noise Forum and Potential Santa Clara County Noise Forum

Item Description:

Continue dialogue with the noise forums within the Bay Area at Oakland International Airport and Mineta San Jose International Airport to share information and best practices, discuss issues relating to Bay Area and national airport noise issues. Assist Santa Clara County with advice on implementing a noise forum and share information with cities regarding aircraft operations.

Background:

The SFO RT has a history of maintaining interaction with fellow airport-sponsored noise organizations in the Bay Area. This has led to joint letters to the FAA and other organizations regarding noise mitigation issues, joint trip to NORCAL TRACON, and understanding how all three airports interact with regards to airspace and noise mitigation. Santa Clara County does not currently have a sanctioned group focused on aircraft noise issues, however there are studies being commissioned by municipalities in Santa Clara County regarding SFO-related aircraft operations. Mineta San Jose International Airport used to have a noise forum that met on a quarterly basis; the noise forum stopped meeting and all noise-related issues are heard at the SJC Airport Commission Meeting. The SFO RT, at its September 28, 2015 Subcommittee meeting, proposed to continue outreach to Santa Clara County with regards to SFO overflights and sharing of information from overflight noise from aircraft transitioning the airspace from other regional airports.

Present to Roundtable: This item is anticipated to be presented to the Roundtable after any interactions or 'teaming' with OAK, SJC, or related organizations on a regional level.

Staff Assigned: RT staff

Strategic Goal: 3

Budget Allocated: No extra budget effort anticipated.

AI5. Include LAX and ORD Roundtable Groups on SFO RT Distribution List

Item Description:

Maintain contact with Roundtable organizations throughout the country via correspondence relating to Roundtable issues on a state and national level.

Background:

The SFO RT has a history of maintaining interaction with the fellow airport-sponsored noise organizations in the country through sharing correspondence relating to current noise issues including pending legislation, funding allocation, or new technology.

Present to Roundtable: This item is anticipated to be in the correspondence section of the RT packets as required.

Staff Assigned: RT staff

Strategic Goal: 3

Budget Allocated: No extra budget effort anticipated.

AI6. Send RT Member(s) to Noise Forums or Technical Conference

Item Description:

Maintain knowledge base of the RT and its members by sending members to technical conferences or other noise forums.

Background:

The SFO RT has a history of maintaining a strong knowledge base of aircraft noise theory that is communicated to the membership. This has been done through conducting Noise 101 sessions, sending RT members to NORCAL TRACON, and to industry conferences.

Present to Roundtable: Fall 2015 meeting; Post-conference attendance updates

Staff Assigned: RT staff

Strategic Goal: 4

Budget Allocated: Anticipated budget of \$2,000/member to attend the AAAE/ACI conference in San Diego in fall 2016. Local meeting attendance not anticipated to have a budgetary impact.

AI7. Send RT Coordinator to LAX Roundtable Meeting

Item Description:

Continue to correspond and maintain understanding of the LAX Roundtable structure and issues by making a yearly site visit.

Background:

The SFO RT keeps in contact with other airport noise organizations, including the LAX Roundtable. In the past, the SFO RT has sent the RT Coordinator to an LAX Roundtable meeting to observe their practices and exchange information with their staff. The RT Coordinator and Technical Advisor will attend an LAX Roundtable meeting on an odd-numbered month in 2015.

Staff Assigned: RT staff and Technical advisor

Strategic Goal: 4

Budget Allocated: Anticipated budget of \$1,000 for the RT Coordinator.

AI8. National Organization to Insure a Sound Controlled Environment N.O.I.S.E. Membership

Item Description:

Maintain understanding of regional and national aircraft noise issues and join with a national group to support legislation and research to quieter aircraft, procedures, and technology.

Background:

The National Organization to Insure a Sound Controlled Environment (N.O.I.S.E.) is an advocacy group focused on reducing noise for communities surrounding airports. The Washington, D.C.-based organization works with major organizations including the National League of Cities to arrange meetings with federal agencies and Congressional offices. The County of San Mateo has historically been involved with N.O.I.S.E. The Roundtable can look for opportunities within N.O.I.S.E. and the League of Cities to make presentations regarding aircraft noise issues. At this time, N.O.I.S.E. is active, but its efficacy isn't fully understood. At the September 28, 2015 Subcommittee meeting, the members recommended staff investigate the pros and cons of membership; approval of this item would be brought to the Roundtable at a subsequent regular meeting.

Present to Roundtable: As required and as legislative information is available.

Staff Assigned: RT staff

Strategic Goal: 3

Budget Allocated: Anticipated budget of \$5,000 to join N.O.I.S.E. and \$2,000/member and/or RT staff to attend its Legislative Summit in a yet-to-be-determined location.

Work Program – Legislative Items

LI1. Research Federal, State, and International Noise Legislation

Item Description:

The Roundtable will continue its research of federal, state, and international proposed noise legislation, as well as existing legislation as it applies to operations at San Francisco International Airport.

Background:

The Roundtable keeps track of legislative issues on state, federal, and international level to determine the implications of legislation on operations and noise issues at San Francisco International Airport. This is done through a subscription to the Airport Noise Report (ANR) as well as monitoring legislation through the Federal Register and other list services. In addition to the RT monitoring noise issues on a federal level, the organization will monitor noise regulations suggested by CAEP/ICAO as voluntary or mandatory. The International Civil Aviation Organization (ICAO) is an organization that recommends best practices and adopts standards for the aviation industry, including noise as it relates to aircraft operations. This research could result in correspondence from the RT to the legislative sponsor regarding any positive or negative impact of the legislation.

Present to Roundtable: This item will be reviewed by the RT as required.

Staff Assigned: Roundtable staff

Strategic Goal: 3

Budget Allocated: No extra budget effort for RT staff. The yearly subscription to ANR is \$850.

Work Program - Research Items

RI1. Guest Speaker

Item Description:

The Roundtable will continue its efforts to have guest speakers invited to RT meetings to present information regarding a topic of interest to the RT.

Background:

The Roundtable, in an effort to keep current on trends in noise and airports, set up a guest speaker item as part of the 2011-2012 Work Program. It is the goal of the RT to continue inviting speakers to the RT, increasing the membership and public's understanding of current issues. The RT and airport staff will recommend speakers, and the RT membership is encouraged to request experts in a specific topic to speak.

Present to Roundtable: This item will be reviewed by the RT as required.

Staff Assigned: Roundtable staff

Strategic Goal: 3

Budget Allocated: No extra budget effort for RT staff, travel costs would be at the expense of the speaker.

RI2. Noise Effects of Aircraft – Traditional Arrival versus Optimized Procedure Descent (OPD)

Item Description:

Determine the difference, measured using a single event metric, of traditional aircraft arrivals versus aircraft utilizing published Optimized Procedure Descent (OPD) criteria.

Background:

As part of NextGen, aircraft will at times execute an OPD approach, which allows an aircraft to descend to an airport using idle power from cruise altitude instead of the standard step-down approach. This type of approach can bring aircraft in lower altitudes above residential areas on the Peninsula. Studies have been conducted in the Woodside area by the Airport Noise Abatement Office, as well as with the Boeing Corporation.

The Roundtable consultant presented a report of aircraft arrivals over the Woodside area comparing traditional to OPD approaches to the Subcommittee in June 2013 and to the full Roundtable in September 2013. This item should be continued as more aircraft become equipped to fly an OPD approach.

Present to Roundtable: This item will be reviewed by the RT as required.

Staff Assigned: Roundtable staff, in conjunction with Airport staff

Strategic Goal: 1

Budget Allocated: Budget to be determined if additional studies need to be conducted beyond capabilities of Airport staff.

RI3. Airport Cooperative Research Program (ACRP) Participation

Item Description:

The Roundtable has the option to become involved with ACRP in three ways: submit a problem statement to the Airport Cooperative Research Program (ACRP) for an item to study in depth, submit applications to serve on an ACRP panel, or support research statements to carry forward.

Background:

ACRP is a subset of the Transportation Research Board (TRB) that studies issues relating to airport operations, including noise abatement. Each year ACRP solicits problem statements relating to a global issue that affect airports throughout the country. ACRP chooses the problem statements to then turn into research projects. Each research project is comprised of a panel of experts and a consultant that completes the research document under the guidance of the expert panel.

In addition to ACRP soliciting for proposals, expert panel members are also required each year. If there are research projects that are applicable to community noise groups or noise mitigation, members of the RT are encouraged to apply to these expert panels. The expert panels meet 2-3 times per project in Washington, D.C.

Present to Roundtable: ACRP Problem Statements are solicited in the spring and applications to serve on an ACRP panel open up in the fall.

Staff Assigned: Roundtable staff

Strategic Goal: 3

Budget Allocated: No extra budget effort; all travel is paid by ACRP.

RI4. CNEL Noise Insulation Boundary Update

Item Description:

The Roundtable will receive updates on the status of the residential sound insulation program at SFO on a biannual basis to include items such as: number of homes within the currently-

approved Noise Exposure Map that are not insulated, number of homes that declined participation in the program, and estimated number of homes being insulated.

Background:

The Roundtable has received updates from the airport over the course of the sound insulation program. The program's focus is to find and inform eligible homeowners that their residence can receive sound insulation treatments for being within the 65 CNEL noise contour, or Noise Exposure Map. The airport is in the process of updating its NEM.

Present to Roundtable: This item will be reviewed by the RT as required.

Staff Assigned: Roundtable and airport staff

Strategic Goal: 4

Budget Allocated: No extra budget effort for RT staff.

RI5. Use of Single Event Noise Metrics to Evaluate Noise Outside of the 65 CNEL

Item Description:

The Roundtable will research the feasibility of using supplemental noise metrics outside of the 65 CNEL to determine the impact of aircraft operations.

Background:

The 65 CNEL is the federally and state accepted metric to determine impacts from aircraft noise as well as eligibility for sound insulation programs. As aircraft become quieter, the 65 CNEL noise contour has become smaller in size, reducing the "affected areas" as defined by federal and state standards. As a response to this, airports have studied utilizing supplemental metrics, which show noise levels at various locations in the community utilizing metrics including Lmax and SENEL.

Present to Roundtable: This item will be reviewed by the RT as required.

Staff Assigned: Roundtable staff

Strategic Goal: 3

Budget Allocated: No extra budget effort for RT staff.

RI6. Use of Unmanned Aerial System in the National Airspace System

Item Description:

The Roundtable will monitor legislation and research related to Unmanned Aerial Systems (UAS) within the National Airspace System (NAS) that is controlled by the Federal Aviation Administration.

Background:

UAS are any unmanned aerial vehicle, drone, or system that is flown remotely by a pilot or via an onboard computer system. Rules and regulations for UAS operations are in its infancy; there are no noise regulations on their use. This program item will monitor uses of UAS and FAA regulations regarding their use and noise abatement regulations.

Present to Roundtable: This item will be reviewed by the RT as required.

Staff Assigned: Roundtable staff

Strategic Goal: 4

Budget Allocated: No extra budget effort for RT staff.

Work Program – Aircraft Operations/ Airspace

AO1. NorCal Optimization of Airspace and Procedures in the Metroplex (Metroplex)

Item Description:

The Roundtable will monitor implementation of flight procedures in the NorCal Metroplex project specific to procedures and operations at San Francisco International Airport. This program, formerly referred to as “OAPM”, is now “Metroplex.”

Background:

The NorCal Metroplex is the update of the airspace in the bay area. Federal regulations required the FAA complete an Environmental Assessment (EA) for the project, determining any environmental impacts to the project study area. The EA was released in March 2014; the Record of Decision on the EA was published July 2014; all Metroplex procedures related to SFO operations are operational.

The Roundtable staff and its consultant will monitor implementation of the 14 new or enhanced procedures for SFO, with specific attention on the following:

- NIITE procedure enhancing the QUIET Standard Instrument Departure (SID)
- SERFR enhancing the BIG SUR & HADLY arrivals
- SSTIK procedure enhancing the PORTE and OFFSHORE SID

Present to Roundtable: This item will be reviewed by the RT as required and updates to the RT will be from RT staff or the FAA.

Staff Assigned: Roundtable staff

Strategic Goal: 1

Budget Allocated: No extra budget effort for RT staff.

AO2. Woodside Optimized Profile Descents (OPD)

Item Description:

The Roundtable will receive briefings on the Woodside OPD

Background:

The Airport currently publishes the weekly Woodside VOR report on its website. This report shows the number of aircraft that flew over the Woodside VOR between the hours of 10:30 p.m. – 6:30 a.m. This Work Program item would require the Airport to provide a report on aircraft that utilized the OPD approach between these hours.

Present to Roundtable: This item will be reviewed by the RT as required.

Staff Assigned: Roundtable staff

Strategic Goal: 1

Budget Allocated: No extra budget effort for RT staff.

AO3. SSTIK and PORTE 5 Departures

Item Description:

The Roundtable will continue to monitor operations on the SSTIK and PORTE 5 departures.

Background:

As part of the Metroplex, the SSTIK departure procedure replaced the PORTE departure for all aircraft equipped to fly RNAV procedures. Both departures fly over portions of the City of Brisbane. In 2012-2013, the Roundtable resumed its work with NORCAL TRACON, SFO Tower, airlines, and SFO staff to determine why the number of aircraft flying over southern portions of Brisbane increased. This Work Program item will continue to monitor this issue and initiate outreach to stakeholders that can assist with mitigation.

Present to Roundtable: This item will be reviewed by the RT as required.

Staff Assigned: Roundtable staff

Strategic Goal: 1

Budget Allocated: No extra budget effort for RT staff.

AO4. Visit NORCAL TRACON

Item Description:

The Roundtable membership will visit the NORCAL TRACON facility in Mather, California.

Background:

NORCAL TRACON is a radar approach facility that controls aircraft movements in the bay area and other portions of Northern California and Nevada. NORCAL TRACON is a key stakeholder for the RT and has historically worked with the RT to implement noise abatement procedures when traffic allows. This site visit will provide members of the RT with an understanding of how NORCAL TRACON operates and watch aircraft movements in real time. The OAK Noise Office has coordinate this effort; the Roundtable proposes to coordinate this effort for the spring 2016 trip.

Present to Roundtable: Schedule trip in spring 2016; present a trip report to the Roundtable following the trip.

Staff Assigned: Roundtable staff

Strategic Goal: 4

Budget Allocated: The Roundtable's contribution on previous joint trips with the Oakland Noise Forum has been approximately \$550, which included transportation and meals for up to 10-12 Roundtable members. For the spring 2016 trip, the Roundtable's contribution would be approximately \$1,000 for transportation and meals as the primary coordinator of the trip.

AO5. Aircraft Use of Satellite Procedures

Item Description:

Monitor additional uses of satellite-based procedures to enhance operations as they are applicable to SFO.

Background:

As referenced in Work Program Item AO1, the airspace related to operations at SFO was part of the Metroplex airspace project. This project identified numerous Area Navigation (RNAV) procedures to enhance existing arrival and departure procedures. This Work Program item will

further define procedures to help noise abatement efforts at SFO, including Required Navigation Performance (RNP). This item would be collaborative with the SFO Noise Abatement Office and at least one airline to assist with procedure enhancements. This item has moved from information to research/action.

Present to Roundtable: As required.

Staff Assigned: Roundtable staff

Strategic Goal: 1

Budget Allocated: No extra budget effort for RT staff.

AO6. Airbus A320 Aircraft Vortex Generator

Item Description:

Work with the SFO Noise Abatement Office to equip carriers that use the Airbus A320/319 family of aircraft with vortex generators for the underwing fuel vent.

Background:

Research has shown that Airbus A320 aircraft have a fuel vent on the underside of each wing. At certain altitudes and speeds, air coming in contact with these vents results in a wind vortex that emits a high-pitched whine noise. This is typically heard 20 – 30 miles away from an airport on arrival. The SFO noise abatement office has researched the solution, which is approximately \$3,000.00, includes labor and parts to install. The Roundtable will work with the noise office to advance this effort.

Present to Roundtable: As required.

Staff Assigned: Roundtable staff

Strategic Goal: 2

Budget Allocated: No extra budget effort for RT staff.
