Mr. Daniel Elwell, Acting Administrator
Federal Aviation Administration
500 Independence Avenue, S.W.
Washington, D.C. 20591

Dear Acting Administrator Elwell,

On behalf of the City Council and as Mayor of the City of Foster City, I am writing to request an update from you on the Federal Aviation Administration's (FAA) Initiative to Address Noise Concerns of Santa Cruz/Santa Clara/San Mateo/San Francisco Counties. This is in support of a recent request on this matter from Members of Congress Anna G. Eshoo, Jackie Speier, and Jimmy Panetta. As part of that update, it is requested that a specific timeline for implementation of all the changes that have been determined to be feasible by the FAA be provided, along with the environmental review process for each recommendation.

We recognize the significant work done by the FAA in November 2017 to update the Initiative. However, aircraft noise and the specifics of noise-impact mitigation measures being undertaken continue to be of community concern. A progress update on these items would greatly be appreciated by all those impacted by this issue, allowing for effective community engagement and greater transparency.

Thank you again for your efforts and for your consideration of my views. Please contact me at (650) 286-3503 or at shindi@fostercity.org if you have any additional questions.

Sincerely,

Sam Hindi
Mayor, City of Foster City
